Trainings, Seminars, Workshops, or Certifications

Python for Data Science, AI & Development — Nov 2025
IBM | Coursera

Introduction to critical infrastructure protection — Jan 2025
OPSWAT

Learn SQL in 3 Hours: A Tutorial for Fast Learners — Dec 2024
Udemy (OCSALY Academy)

ACADEMIC AWARDS AND ACHIEVEMENT

An Experimental Investigation of Shredded and Pulverized Polyethylene: Factors to Improve the Quality of Concrete Mixture Used by Construction Workers and Engineers SHS – 3rd Place in research fair – 2023

CAREER OBJECTIVE

Enthusiastic Computer Science student seeking an internship position to apply my academic learnings in a professional setting. Building on my foundational skills in Python, SQL, and debugging through various school and personal projects, I am eager to support a dynamic team's goals, learn from seasoned professionals, and apply my passion for turning complex problems into seamless code.

ORGANIZATIONS, LEADERSHIP, OR VOLUNTEER EXPERIENCES

April 2026 – July 2026

Department of Social Welfare and Development (DSWD)
Farm Support Worker (Cash for Work Program)
Quezon City, Philippines
Assisted in agricultural operations, data recording, and logistics under the DSWD Cash-for-Work Program.

August 2024 – July 2026

Founding Member & Board of Programmer
Junior Philippine Computer Society (JPCS) – Quezon City University Chapter
Co-founded the university chapter and designed algorithmic competition questions, ensuring accurate evaluation of participant code logic and efficiency.
